Meeting Contractual Obligations: Know your Contract

Workload issues continue to be a major concern. Teachers are increasingly being asked to perform duties that cannot be completed during the normal work week. While most of these tasks are part of teacher responsibilities, time should be provided to complete them during the normal work week. If you are unable to do so and need to complete these tasks during your lunch, planning period, or outside your normal workday, contact TAAAC immediately. It may be appropriate to file a grievance.

What am I supposed to do? What should I not have to do?
