Get Out the Vote, TAAAC!

Every election season, education is on the ballot. Elected officials who have not spent time in a classroom since they were in their K-12 schools are making decisions that impact our working conditions, and our students' learning conditions. If you are concerned about the impact of the Blueprint on your salary, or whether or not there will be funds for an annual step increase, this is how we make our voices heard. The 2022 midterm elections are our chance to send a clear message that we're not going back to slashed budgets and harmful policies that leave too many students behind. When educators show up and vote, educators win, and our students win. Here is what you can do ahead of November 8 to support pro-public education and educator-recommended candidates:
